La Caisse entrusts \$75 million to AlphaFixe Capital

Montréal, September 18, 2026 – La Caisse, a global investment group, today announced that it has entrusted \$75 million to AlphaFixe Capital, a leading Québec-based investment management firm specializing in fixed income with over \$20 billion in assets under management. This investment is part of La Caisse's commitment to fostering the financial expertise and growth of Québec asset managers.

La Caisse is investing in AlphaFixe Capital's alternative credit strategy, which aims to generate positive returns that are not subject to equity and bond market performance, while limiting periods of negative returns. Through this approach, it helps deliver a more stable return profile across market cycles, including during periods of heightened volatility.

"The knowledge and vitality of Québec's asset management industry are valuable assets for La Caisse. By collaborating with local managers, we enhance our sources of expertise and further diversify our portfolios, complementing the work of our teams. The mandate entrusted to AlphaFixe Capital reflects this approach, which allows us to access specialized strategies and generate solid long-term returns for our depositors, while contributing to the dynamism of Québec's financial ecosystem," said Vincent Delisle, Executive Vice-President and Head of Liquid Markets at La Caisse.

"It is with great pride that we take on this new fixed income management mandate. This vote of confidence from La Caisse reflects the spirit of entrepreneurship and innovation that drives us, as well as the strength of the fixed income expertise we have built since 2008. This trust is also based on our ongoing commitment to responsible management. It confirms that portfolio management has a rightful place in Québec, and that local entrepreneurship can meet the industry's highest standards," stated the two co-founders of AlphaFixe Capital, Stéphane Corriveau and Sébastien Rhéaume.
